

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

RUSTY AND TERESA MULLINS)	
)	
COMPLAINANTS)	
)	
v.)	CASE NO. 2002-00176
)	
LICKING VALLEY RURAL ELECTRIC)	
COOPERATIVE CORPORATION)	
)	
DEFENDANT)	

FIRST DATA REQUEST OF COMMISSION STAFF
TO RUSTY AND TERESA MULLINS

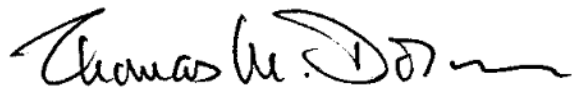

Pursuant to Administrative Regulation 807 KAR 5:001, Commission Staff requests that Rusty and Teresa Mullins (Complainants) file the original and four copies of the following information within 10 days of the date of this request, with a copy to all parties of record. Careful attention should be given to copied material to ensure its legibility.

Licking Valley Rural Electric Cooperative Corporation lists as one of its reasons for denying service to Complainants that Complainants allegedly have not complied with Kentucky Revised Statute 211.350, Kentucky's Straight-Pipe law. This statute requires the owner of a building to obtain from the local health department an on-site sewage disposal permit prior to building any on-site sewer disposal system. Subsection (5) of KRS 211.350 prohibits an electrical inspector from issuing temporary or permanent electrical wiring permits unless the owner has obtained from the local

health department the proper release. The proper release comes in two forms; an owner needs to obtain only one. The first type of release is an initial notice of release issued by the local health department to allow temporary electrical power for construction. The second type of release is a final notice of release to allow permanent electrical power by the local health department upon approval of an on-site sewage disposal plan. Without one of these releases, an electrical inspector cannot certify a house and, thus, an electric utility cannot extend service to the house.

1. Regarding the types of release as mentioned above, have you obtained a release from the local health department for your residence? If yes, provide a copy of the release.

2. Is the trailer on the property attached to an on-site sewer disposal system?
